

ILLEGAL USE OF PV CYCLE LOGO and NOT MEMBER:

During Exhibition, Events and online research, PV CYCLE has discovered that some companies are using the PV CYCLE Logo in their marketing and communication tools without being a member of the association. For transparency towards PV CYCLE Members which are financing the PV CYCLE take back and recycling scheme, we will disclose from now on in this dedicated page the names of these companies. We would like to remind our website visitors that only the companies listed in <http://www.pvcycle.org/index.php?id=125> are Full Compliant Members of the association.

The companies which are not member and are using our logo are:

- **OVIERA SOLAR**
- **QJ SOLAR**

MEMBER NOT IN COMPLIANCE WITH PV CYCLE REQUIREMENTS:

Since 2010, year when PV CYCLE became operational in Europe, we invited all our full members to fulfill some requirements for the development of the PV CYCLE take back and recycling scheme. When a company has joined, it has the obligation to be compliant with all requirements decided by the PV CYCLE Board of Directors and/or General Assembly.

PV CYCLE avoids having companies on board only for marketing reasons.

Therefore, after several reminders regarding their open obligations towards PV CYCLE, the companies below are not compliant.

- **SUNLINK PV**
